

Standard Policy for Video Doorbells

Unit owners are permitted to install Video Doorbells on the exterior of residential unit exterior doors or door jams so long as they are in conformance with the following policy:

1. Only a single Video Doorbell device is permitted per unit.
2. The Video Doorbell device may be installed on the door or door jamb of the unit, the exterior door in the case of a townhouse or the unit door or door jamb in the case of condominium in a multi-unit building. A Video Doorbell device may not be installed on the exterior door of a multi-unit building or exterior walls of a unit or building.
3. The Video Doorbell device must be battery operated.
4. Effective: December 4, 2019
